Summary

Former founder of Borofy, an e-commerce platform to rent products (like UK-based startup Fat Llama) with 2500+ users and 500+ products.

I hold a degree in Computer Science and launched 6 online courses on Udemy and Skillshare, covering Tech and Productivity topics.

I have created and launched 4 Open-Source Google Chrome Extensions to carry out different tasks. As an experienced full stack developer, I have delivered over 250 mid to large-scale projects, including 100+ web apps.

Eager to leverage my entrepreneurial background, programming expertise, and project delivery experience to contribute effectively. Highly motivated, results-oriented, and a team player with a proven record of success. Ready to make a significant contribution to your team. I am available for immediate start.
